THE VILLAGE @ INDIAN HILL

*“Better Serving the Students,
Parents and Community”*

May 2010

A Message From Village Management

The pace of change in education services is rapid, and we realize the importance of meeting and exceeding our community's expectations for providing good quality services. Every plan we make, every action we implement, is driven by the desire for quality and is keenly focused on the following pivotal tents:

- Providing outstanding services;
- Providing a safe and clean work place for employees;
- Being good financial stewards;
- Building, nurturing and preserving a strong partnership with the Pomona community.

A vital component in our quest for quality is the constant investment in people, facilities, and technologies. We continue to focus on having a safe and clean facility, which is essential to our purpose to provide the highest standard of quality service that we are proud to deliver to our Pomona community. A key to the ultimate in education services is to provide services that are needed in the community. We here at the Village are putting together one of the most sophisticated One-Stop-Service facilities in the state and nation for that matter and acquiring the most up-to-date education technologies available.

We believe that the best outcomes for our community can be achieved when we connect services across a broad continuum, from state, local and federal services. We also believe that by combining our efforts with those of other organizations, we can improve the education community. But the underlying theme guiding us through it all continues to be quality. Quality is our passion and our energies will remain dedicated to it.

Education service is constantly changing. We are proud to provide the necessary services our community needs to keep up with the constant changes in education.

Student of the Month

Congratulations to **Esteban Barajas** who has been named Student of the Month by the School of extended Educational Options (S.E.E.O.), a dependent charter school which serves students in grades 7 - 12 through independent study.

Teachers and staff unanimously selected Esteban for displaying many outstanding qualities such as great attendance, excellent productivity and a striking working relationship with his peers and teachers.

Esteban is a model student who holds 215 credits and will be part of the SEEO graduating class of 2010!

Village @ Indian Hill provides a one-stop location for in-services and business meetings. For more information on how to schedule a meeting room, please dial ext. 6070.
